ABSTRACT

The omnipresent presence of English loan words in Thai language is increasingly reflected on social media, especially Twitter. This research studied the types of English loan words most used in Thailand and popular topics using English loan words on Twitter in Thailand. The qualitative research method was employed to analyze the types of English loan words used on Twitter and thematic analysis were employed to categorize data by topics for which English loan words are used. The results revealed that transliterations were most employed on Twitter in Thailand. Transliterations were used in 94.12 percent of cases, or 96 out of 102 words. Loan blends were occasionally used on Twitter. Loan blends appeared in 5.88 percent, or six out of 102 words. In addition, the top three most popular topics using English loan words in Thai language included opinions on celebrities, movies and television programs, music and art. 23.56 percent of Twitter users in Thailand employed English loan words for opinions on celebrities, or 24 of 102 words, while 15.69 percent used them to discuss movies and dramas, or 16 of 102 words, and 8.82 percent or nine of 102 words, about music and art. These findings may be useful for further related research.

Keywords: English loan words, Loan words, Twitter application

ACKNOWLEDGEMENTS

This study could not have been completed without the help and support of my advisor, Assistant Professor Dr. Vajjagahn Suriyatham. I would like to express my sincere gratitude to my advisor, who devoted her time to provide feedback for this study and guided me when I made a mistake.

Also, I would like to say thank you Dr. Sichon Koowuttayakorn for valuable comments for improving the study.

Lastly, I would like to thank my beloved family and friends who have supported and encouraged me since I came to study at LITU until I completed this study.

Miss Papitchaya Sangsarai

CHAPTER 1 INTRODUCTION

1.1 Background of the Study

When people who have different speech varieties interact with each other, language contact will occur (Rungruang, 2007). As a result, language contact leads to borrowing words or loan words. A loan word is a word that has been borrowed from one language and naturalized to another (Lohakart, 2009) in order to improve understanding between people who use different languages. For example, Thai has adopted the words "bonus" from English. So, this is an English loan word in Thai.

Rungruang also stated that apart from Pali-Sanskrit and Chinese, English has become an influential or important role in Thai. In daily life, we can observe that English is commonly used in conversation among Thai people because most people use English to communicate in trade, coordinate with a foreigner, and for education or specific purposes. Additionally, Lohakart mentioned that in terms of speaking and writing in Thai language, English loan words have an influence because Thai people usually used English loan words to describe something new, which is not existing. Therefore, English is a widely accepted second language in Thailand. For example, English is used in the name of some brands such as "Peppermint" which is the name of an inhaler's brand in Thailand. Not only is the English name shown on the product, but it is transliterated in Thai.

At present, in case of social media, it is an extensive and fast environment. So, this phenomenon should be paid more attention (Jimma, 2017). In daily life, social media has become more influential (Junlaprom, 2021) causing the proliferation of loan words through online environments such as Twitter and Facebook. Junlaprom, especially, Twitter, which has more freedom of communication than other online platforms. So, it became an area for quickly spreading loan words. While Jimma also stated that English as a Foreign Language (EFL) widely occurs in social media, which leads to increasing of loan words. In Thailand, English loan words are not just used for specific purposes like a brand's name, medical profession, or education, but English loan words are widely used in online environments such as Twitter, Facebook,

Instagram, YouTube, and Line, where people communicate, and share contents and information to others.

For this reason, the result of extensive use of loan words may affect other languages and people who are not native speakers of the loan may be concerned due to increased usage. Consequently, the findings of this study were to show the phenomena of Thai society in which English loan words are applied in Thai contexts. Additionally, the results of this study can be helpful for Thai people who start to use Twitter to better understand the communication contexts in this community.

1.2 Research Objectives

- 1) To observe the types of English loan words do Thai people use the most on Twitter.
- 2) To find out the popular topics on Twitter where Thai people use English loan words in Thai.

1.3 Research Questions

- 1) Which types of English loan words do Thai people use the most on Twitter?
- 2) What topics on Twitter are popular with Thai people who use English loan words in Thai?

1.4 Definitions of Key Terms

- 1) English loan words refer to the words that people borrow from English to use in their context without interpreting the meaning. Those words were transliterated in their own language (Haugen, 1950).
- 2) Twitter is a social media platform for users to interact and keep in touch by quickly exchanging messages. The users can post pictures, videos, and texts on their profile and it can be sent to their followers. Moreover, users can search for information on Twitter (Twitter, 2022).
- 3) Tweet refers to the message that users can post on Twitter. It consists of text, GIFs, photos, videos, and links (Twitter, 2022).
- 4) Thai people refer to a group of Twitter users whose first language is Thai and are between 15-30 years old.

1.5 Scope of the Study

This research focused on the types of English loan words that Thai people use on twitter, and the topics that people use English loan words in Thai frequently. The data was collected from tweets that contained English loan words in Thai. The tweets were randomly selected from 20 hashtags that were daily popular hashtags in Thailand trending during February to April 2022. This research took approximately 2 months to study and collect the data.

1.6 Significance of the Study

This study of the use of English loan words of Thai people on Twitter will show the phenomena and evolution of Thai society in which English loan words are applied in Thai contexts with various topics on Twitter such as politics, economics, and entertainment. Moreover, this study could help Thai people who start to use Twitter to better understand the specific linguistics used in this community for effective communication.

1.7 Organization of the Study

This study consists of five chapters:

Chapter one presents the introduction, background of the study, research objectives, research questions, definitions of key terms, scope of the study, significance of the study, and organization of the study.

Chapter two presents about language change, loan words, types of loan words, social media communication and Twitter, and related previous studies.

Chapter three presents the methods, procedures in conducting the research, and data analysis.

Chapter four reports the findings and results of the data collection. Moreover, this chapter presents a detailed description of the results that were obtained from the study.

Chapter five discusses and summarizes the results of this study and recommendations for further research.

CHAPTER 2

REVIEW OF LITERATURE

This chapter reviews the literature in 6 main topics: (1) Language change, (2) Loan words, (3) Types of loan words, (4) Social media communication and Twitter, and (5) Related previous studies.

2.1 Language Change

The sociolinguists believe that study about language change reveals the nature and characteristics of social change (Tayjasanant, 2011). She also stated that language change occurs when a new form of language is used by a particular group. Later, it was expanded to a larger group. Language change can be divided into three assumptions. First, language change can be observed from phonology, syntax, and vocabularies. Second, language change is systematic and usual. Last, language changes in some way, which is natural and possible. So, language can change over time (Wardhaugh, 1997, as cited in Lohakart, 2009, p. 10).

Lohakart (2009) stated that the language can be changed from one language to another; this is called loan words. The elements of borrowed words are lexical items, syntax, and phonological. Tayjasanant (2011) claimed that the subsystem of language change can be divided into five subsystems as follows:

- Phonological change is the system of sound in a language that is changed, especially, distribution of sound and phonemes. For example, the word "house" used to be pronounced as "hoos".
- Morphological change is changing in the system of morphophonemic in a language. For example, the word "stone".

Form	Singular	Plural
Nominative	stan (stone)	stanas (stones)
Genitive	stanes (stone's)	stana (stones')
Dative	stane (stone)	stanum (stones)
Accusative	stan (stone)	stanas (stones)

- Syntactic change is changing in the system of grammar in a language.
 In other words, in the past, the sentence structure was different from the present. The past structure is subject + object + verb: the man the king slewed, but the present structure is subject + verb + object: the man slewed the king.
- Lexical change is the change in the system of words in a language. The
 words can be changed in various ways such as by adding the function of
 a noun to a verb or adding the function of adjective to a noun. In
 addition, new words can be arisen in several ways.
- 1. Compounding: An existing word is combined to new words such as *football* and *bus stop*.
- 2. Word coinage: It is a creation of new words such as *e-learning*, *aspirin*, and *volt*.
- 3. Borrowing foreign words: For example, *drama*, *guitar*, and *alcohol*.
 - Semantic change is changing in the meaning of words, which can be changed by broadening, narrowing, or shifting.
 - 1. Broadening: the word "mouse" is not only used as the kind of animal, but is used in the computer industry at present.
 - 2. Narrowing: the word "deer" was used in for all types of animals in the past. On the other hand, this word is used to describe an animal that has two hooves on each foot, a four-chambered stomach, long legs or spindly legs, and short tails.
 - 3. Shifting: the word "silly" meant happy in the past, but in the present, it is used to describe stupidity.

2.2 Loan Words

According to Durkin (2014), the words "borrowing" and "loan" in terms of linguistics are a normal term to explain the process of duplicating some part or whole feature of one language to become another language. For example, we want to explain something which is a new opinion or something new, but we lack the vocabulary in our language to express new opinions. Thus, we have to borrow some vocabulary of another

which has the same meaning as the new opinion to fulfill our opinion. Meanwhile, Spolsky (1998) revealed that the beginning of loan words is changing the words. It appears when new vocabulary or new words are combined into the second language (as cited in Chaa, 2020, p. 4), whether more or less. Likewise, Hornby (2005) defined that "a word, a phrase or an idea that somebody has taken from another person's work or from another language and is used in his own" (as cited in Chaa, 2020, p. 4). In addition, the loan words are claimed that it might be "a recipient language" and another language that people bring to use in the borrowing language is "a source language" (Winford, 2003, as cited in Chaa, 2020, p. 4).

In summary, loaning is related to words, phrases, and some ideas. Loan words are important because people normally adapt their external language from the phonetics and the grammar rule of the receiving language.

2.3 Types of Loan Words

Loaning in linguistics occurs depending on different situations, and it leads to several types of borrowing. In borrowing, it can be clearly observed between lexical borrowing and structural borrowing, also known as grammatical borrowing. Structural may be phonetic, phonological, syntactic borrowing, and morphological (Chaa, 2020).

Prasithrathsint (2004) stated that borrowing words in Thai society is the process of reaching Thai people by translating because Thai society is open to western culture (as cited in Thappang, 2012, p. 97).

The types of borrowing words are classified into basic four types, which is used in Thai as the following: (1) Transliterations, (2) Loan blends, (3) Loan translations, and (4) Loan shifts (Sujaduk, 2006, as cited in Lohakart, 2009, p. 13).

2.3.1 Transliterations

Transliterations are the ambiguous type because it is a type that can be referred to as practice groups. On the other hand, in linguistics, transliterations are brought to a particular word or basic word from another language to use directly in their own language without changing (Haugen, 1950). Even though the word has been modified but very little has changed (Mahakaew, 2017). In other words, it is the adoption of other languages to write in their own language including the same pronunciation. In addition,

the pronunciation of the word is pronounced according to the degree of adaptation (Greavu, 2014). For example, transliteration word in Thai is "computer" – "คอมพิวเตอร์"

2.3.2 Loan Blends

The second type of borrowing is "Loan blends", which is done by bringing some foreign word and native word to mix without a pronunciation change, spelling change, and meaning change (Izzah & Setiarini, 2008, as cited in Adam Mulyana, 2016, p. 12). Similarly, loan blends are combined with the word from another country which is borrowed and some native word (Greavu, 2014). For example, loan blend word in Thai is "cake" – "บนมเค้ก". When the word "cake" is used in Thailand, the word "บนม", which is a Thai word will be added to explain the type of cake to improve the understanding of Thai people. The word "บนม" means dessert.

2.3.3 Loan Shifts

The adaptation of native terms from a first language to the new word of the second language is referred to as loan shifts (Jendra, 2012, as cited in Adam Mulyana, 2016, p. 12). In other words, loan shifts are the terms of sound and spelling that are changed or extended from the original language, but that word exists in other languages (Aw et al, 2014). The example of a word in Thai is "ice" – "น้ำแข็ง". The word "ice" already exists in Thai word, which is "น้ำแข็ง" or the word "black sheep" – "แกะ ดำ". This word also exists as a Thai word, which is "black" – "ดำ" and "sheep" – "แกะ".

2.3.4 Loan Translations

Loan translation, also known as calque, is the combination of more than two native words, which is equal to a foreign form (Backus & Tian, 2013). While, Aw et al. (2014) stated that loan translation is the words that are translated from another language to a native language. From these studies, the researcher observed that the position of the word translated into native language is matched to the original position of another

language. The example of loan translations in Thai are "telephone" – "โทรศัพท์". It can be divided into "tele" is "โทร" and "phone" is "ศัพท์".

2.4 Social Media Communication and Twitter

In terms of social media, it is not only media, but it is a platform where people communicate with each other through the internet. Social media is an interaction platform for people to create, share, and transfer information instantly and easily to another. It also can be used to communicate like a virtual world (University Communications and Marketing, 2022).

According to Chaa (2021) in 2001, most services such as Wikipedia were generally used in the world. In 2004, Facebook application was a media platform that became a popular media platform. Next, media platforms such as Twitter began performing. These social media platforms have two formats to transfer information or data to other people which are audio files and a flash software plug-in for web browsers. Either audio files or flash software plugins are intermediaries that make sharing images and sounds on social media easier (Boyd & Ellison, 2007).

Various types of social media lead to different services. This difference affects the method of speaking and the interaction purposes (Chaa, 2021). For example, if people want to post the content or message to broader viewers, they use Facebook to communicate or share the message. On the other hand, if people want to read short messages and write messages faster, they can use Twitter to communicate with their followers (Boyd & Ellison, 2007; Kelly-Holmes & Pietikäinen, 2012, as cited in Chaa, 2020, p. 20).

Twitter is a social network with a limit of 140 characters for sharing information per posting to communication (Kwak et al, 2010). Twitter needs the users to keep their communication behavior concise and informative (Junlaprom, 2021). As a result, each tweet must be written in the most effective way to communicate. The relationship between follower and following in Twitter does not require a response with each other (Kwak et al, 2010). In other word, if the user wants to follow another, they can follow, and the user who is followed does not need to follow back. Kwak also stated that the users who are followers can receive all messages, which is called "Tweet" from people

they follow. Moreover, the users can receive the message and news from retweet of people they follow and hashtag. Kwak et al. (2010) mentioned that the retweet process helps the users spread the information to both their followers and the users who do not follow them to reach the original information.

In conclusion, social media has become the center of language, which is used for different purposes. Especially, a dominant language such as the English language. English is always used on social media in many countries. Annab (2019) stated that increasing the use of English through the internet may have an impact on other languages because it is widely used in terms of economics, technology, and culture. Hence, the cause that people widely use loan words comes from the use of English on the internet.

2.5 Related Previous Studies

This part reviews about the previous studies, which are the use of loan words on social media and online advertisements.

Chaa (2021) conducted the study about the use of English loanwords on social media. The researcher collected the data from 100 students who used Twitter and Facebook. This study focused on the awareness of student's linguistic behavior and the factors that motivate the students to use English loan words on social media. The use of English loan words by university students depended on the topics they discussed such as religion, sports, politics, education, relationship, and technology. However, technology and sports topics were most discussed by using loan words on social media than other topics. Also, the students used social media because they wanted to use more than one language to communicate their thoughts. Moreover, they use loanwords since they wanted to show their degree of education and their background.

Widyaningsih (2017) conducted a study of loanwords used in social media as a basis for making the Indonesian language learning model. This study investigated English loan words in Indonesian language in vocabulary form, the process which the vocabularies are absorbed into Indonesian language, knowing if there was a change of meaning of loan words or not, and the design of examples for learning about loan words forms. The researcher used the descriptive method to study about distribution and invention. The information in this study came from Indonesian people's writings on

social media, which are widely utilized in their country. The finding of the study showed that there are three ways to write loan words in Indonesian on social media; adoption, adaptation, and levies. The researcher stated that the change of meaning occurs when Indonesian people absorb English loan words into their language. In this study, two groups of meaning changes were discovered: narrowing meaning and widening of meaning.

Stewart et al., 2021 conducted the study of investigating of social constraints of loanword integration in Spanish social media. In this paper, the researchers focus on the role of social context and the background of Spanish speakers about the usage of integrated verb forms for English loan words on social media. They found that newspapers have the integration of loan words and native words more than social media. Therefore, the integrated verb used for loan words is obviously connected to formality. In social media, as a result of the speaker's background, researchers who always write in Spanish and have a lot of readers tend to use integrated verb forms. This study highlights that loanword integration is used not only to solve language-internal constraints but also used to serve social expectations between speakers and their audiences.

Tadee and Mahakaew (2019) conducted a study of English loanwords used in beauty product advertisements. The study in 2 aspects are the types of loan words and semantic changes in advertisements of Thai beauty products. The researcher collected the data by finding English loan words in online advertisements of 10 brands. The result showed that transliteration words were widely used in online advertisements of 10 brands (96.8%). Following by loan blend (2.8%) and loan translation (0.4%). However, loan shift was not used in online advertisements. In addition, the researcher found that the type of meaning of English loan words in Thai that was used the most in online advertisements is the original meaning.

In summary, the literature review of this study focused on English loan words in Thailand, language change, definition of borrowing, types of borrowing, definition of social media, language on social media, and related previous studies. The next chapter is the research methodology, which focuses the on target words, methods, research procedures, and data analysis that were used in this study.

CHAPTER 3

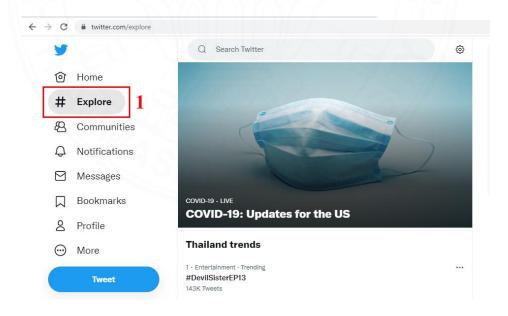

RESEARCH METHODOLOGY

This chapter describes the methodology which is used in this research. There are three parts in the research methodology: (1) Methods, (2) Research Procedures and (3) Data Analysis.

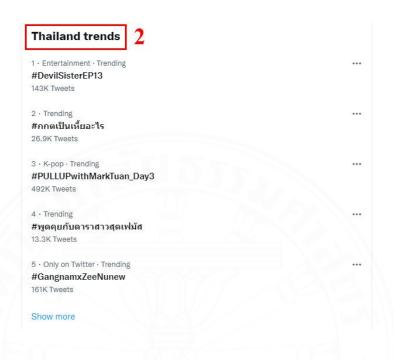

3.1 Methods

The qualitative method was applied in this study because the data are related to the tweets, which are the texts from Twitter of Thai people who tweet in their account. The researcher collected the data from 20 hashtags that were daily popular hashtags in Thailand trending during February to April 2022. To be detailed, the researcher did the following steps:

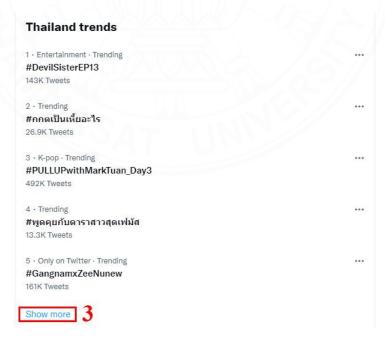

1) The researcher clicked the "Explore" button to find the hashtags, which were Thailand trends.

2) After clicking the "Explore" button, Thailand trends will be shown on the screen.

3) Then, the researcher clicked the "show more" button to find other hashtags ranked.

So, these hashtags below were the results of the research that followed the method.

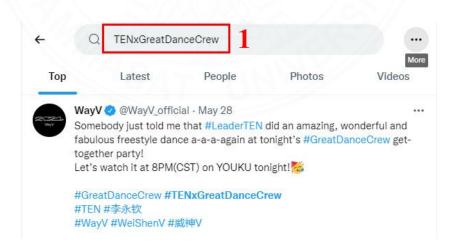

#ฟรังนรีกุล, #คริสวู, #เลือกตั้งเกาหลี2022, #แฉนิวมช, #ยูเครน, #คุณชาย
,#NotMeSeriesFinalEP, #Feel_My_Rhythm, #BusinessProposalEp7, #YORCH,
#MILLILiveatCoachella, #TheWeeknd, #ทริอาชTheSeriesEp1, #scbล่ม,
#QUEENDOM2, #GRAMMYs, #TENxGreatDanceCrew,
#TENwithGreatDanceCrew, #บบวนเสด็จ, #ทริอาชTheSeriesEP2.

Because the time to study and collect the data was limited, convenience sampling was applied in this study. There are over 100 tweets in some hashtags, so the researcher chose this method to analyze the data. 50 tweets from each hashtag were chosen to analyze the data.

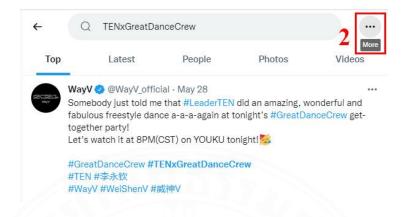

3.2 Research Procedures

The data in this study were collected in the form of Thai tweets containing English loan words in Thai on Twitter. The process for collecting the data is as follows: First, the researcher set the information that the researcher wants to know in the advanced search box of Twitter. To be detailed, the researcher did the following steps:

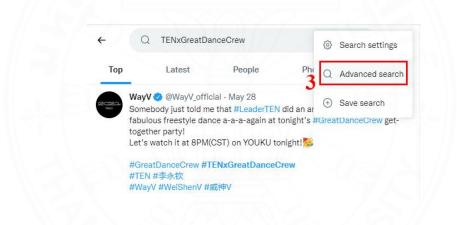

1) The researcher inserted a hashtag chosen from Thailand trends in the search box.

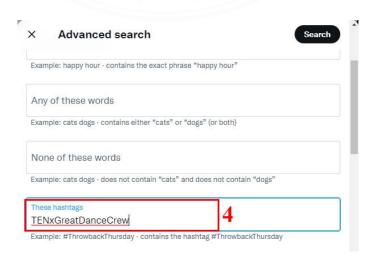

2) The researcher clicked the "More" button.

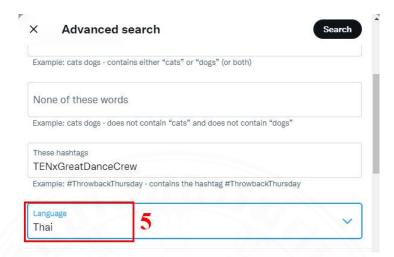

3) Then, clicked the "Advance search" button to go to the settings.

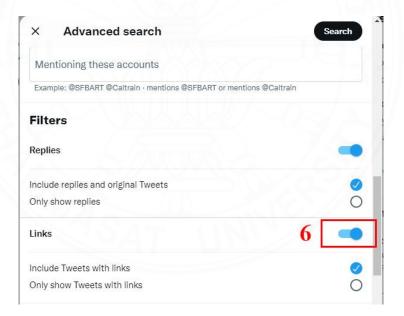

4) The researcher put the hashtags that were ranked at that moment in "These hashtags" box.

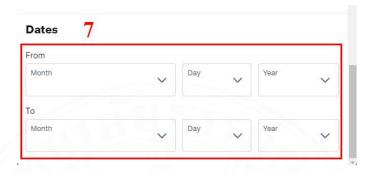

5) The language of tweets, which is Thai language was set.

6) The filters such as links were removed.

7) The dates of tweets were set because some hashtags that were ranked might be ranked for several days, so the researcher only set the date that the researcher found in the rankings.

Second, the researcher selected the tweets that contained English loan words in Thai per hashtags to analyze the data. These tweets were captured by Apple's Mac screenshot tool. Then, these tweets were gathered in a word file. In the file, all of the tweets collected were categorized into types and topics. Furthermore, all of the usernames were kept anonymous and replaced with T followed by number (i.e., T1 to T73). The people who were mentioned in tweets by Twitter users were kept anonymous. Their name was replaced with capital letters. Third, before the researcher analyzed the data, the researcher read the articles or journals related to this study. After that, the researcher analyzed the data into types and topics where Thai people use English loan words.

3.3 Data Analysis

The researcher used Apple's Mac screenshot tool and Microsoft Word. Apple's Mac screenshot tool was used for compiling the data by capturing 20 hashtags. Then, the data was gathered in Microsoft Word since the data can be analyzed easily and systematically. After the researcher compiled the data, it was indicated into the types of English loan words found in the tweets based on Sujaduk's (2006) theory, which consists of transliterations, loan blends, loan shifts, and loan translations. Next, the amount of data for each type of English loan words on Twitter where Thai people use English loan words in Thai were calculated to percentage by a calculator for clarity.

After that thematic analysis was applied in this study to identify the topics where Thai people use English loan words in Thai. The researcher analyzed and classified the data into various topics that the Twitter's users discussed by observation of the functions of English words in Thai in the sentence and observation of the sentence of the tweet.

CHAPTER 4 RESULTS

This chapter shows the results and discussion of the study. The results part will be discussed in accordance with the study objectives, which are: 1) the types of English loan words in Thai and, 2) the popular topics on Twitter where Thai people use English loan words in Thai.

4.1 The Topics and Hashtags were found on Twitter

According to observing 20 hashtags on Twitter that were daily popular hashtags in Thailand trends, the topics found in hashtags are presented in the table below:

Total	96	6	0	0

The findings of the study found that the types of English loan words in Thai that Thai people often use in Twitter are transliterations, which have 96 words out of 102 words. Next, loan blends are occasionally used on Twitter. The numbers of usage of loan blends were six words out of 102 words. Meanwhile, loan shifts and loan translations were not found in their tweets. It can be calculated as a percentage as follows:

Table 4.2.2Percentage of English Loan Words in Thai on Twitter

Type	Numbers of usage	Percentage
Transliterations	96	94.12
Loan blends	6	5.88
Total	102	100

From the results shown on table 4.2.2, transliterations type was used 94.12 percent or 96 out of 102 words on Twitter by Thai people. Next, loan blends type was only used 5.88 percent or six out of 102 words.

4.2.1 Transliterations

According to table 4.2.2 above, Thai people have more used transliterations than other methods. Transliterations are bringing the words from other countries to write and pronounce in their own language directly without modifying. Some examples of transliteration found in the data are shown here. For the complete list, please see Appendix A.

T1: คนๆนึงต้องมาชื่อเสียงเสียหายในวงกว้าง การงานโดนแบน โดนตราหน้าว่าเป็นโรค จิต บ้ากามเพราะข่าวโคมลอยไม่มีหลักฐานแน่นอนและความหูเบาของชาว<u>เน็ต</u>ที่ไม่ใช่แก่<u>เนติเซน</u> จินเพราะ<u>เนติเซน</u>ไทยก็ไม่น้อยหน้า ทุเรษจริงๆ

T1: Why does one person have to suffer because of reputational damage? Their work is banned, and they are labeled as psychopaths. There is no conclusive evidence, and the gullible personas of <u>internet</u> users who are not only Chinese <u>netizens</u>, but also Thai <u>netizens</u>. It is very disgraceful. (8/3/2022) #กริสา

T2: แต่ตอนนั้นคนที่ค่าเฮียคือไม่ได้ค่าแค่เฮียอะ ลามไปค่า₄ด้วยว่าบ้าผู้ชาย เฉียงแทนฝั่งB
อย่างเต็ม<u>สตรีม</u> ประหนึ่งว่าเป็นญาติพี่น้องเขา ทั้งๆที่ตอนนั้นเพิ่งมีข่าวออกมาตอนนี้กลับหายเงียบ
เลยนะคะ

T2: But at the time, that individual was not only cursing him, but also scolding A for being obsessed with males. Arguing in full <u>stream</u> for the B side as if they were his relatives. Despite the fact that the news had just come out at the time, you have now disappeared totally. (8/3/2022) #กริสา

T3: เมื่อก่อนเคยร้องให้เกือบตายเพราะกลัวไม่เห็นเขาหน้ากล้องอีก แต่หลังจากเรื่องเหี้ยห่า
ประดังประเคเข้ามาไม่มีพักนี่แทบภาวนาให้เขาได้อยู่ในพื้นที่<u>คอมฟอร์ท</u>ของตัวเองเถอะ วงการ
บันเทิง แม่ง**ท็อกซิก**เกินรับไหว

T3: I used to cry every day because I was afraid, I would never see him in front of the camera again. But after hearing all that nonsense, I almost wish he could stay in his **comfort** zone. The entertainment industry is too **toxic**. (8/3/2022) #กริสา

T13: ความเป็น<u>สเตรท</u>ที่แบบ อ่าต้องมาเล่นวายเพื่อเอากระแส แต่ในขณะเดียวกันออก รายการก็ต้องแสดงออกว่าไม่โอเค กลัวคนจะคิดว่าตัวเองเป็นเกย์เพราะความ<u>โฮโมโฟบ</u>แล้วพวกอ้าง เล่นเพื่อพิสูจน์ฝีมือก็คือแหวะหนึ่ง การที่แสดงๆไปตามภาพจำ<u>เสตอริโอไท</u> กับการพยายามเข้าใจ เพศของตัวละครมันต่างกันนะ

T13: The <u>straight</u>, Ah, many people choose to play gay series because it is so simple to stay trendy and popular. However, when they have to show up on some stage, they have to act like they are not <u>okay</u> because they are afraid that people will believe they are gay due to <u>homophobe</u> and will pretend to be so in order to demonstrate their abilities. Acting according to <u>stereotype</u> and attempting to comprehend a character's gender role is not the same. (13/3/2022) #คุณชาช

T17: เป็นเรื่องที่ดีมาก ทั้งบททั้งนสด (นักแสดง) **ซีน**ที่ประทับใจสุดๆ คือซีน สมรสเท่า เทียม**มัน<u>อิมแพค</u>มาก**ๆ

T17: Both the script and the actors are excellent. The same-sex marriage <u>scene</u> is the most impressive. It has a big <u>impact</u>. (20/3/2022) #NotMeSeriesFinalEP

T18: คีมากกๆ คีสุดๆๆ เพลงคี ชุคคี คอสตูมคอนเซปคือปังเวอร์ไปหมดค แบบเสพงาน อาร์ตมากๆ mvนี้ยกให้ A เลยค่ะสวยมากกสวยไม่ไหวว

T18: Everything is awesome. Excellent music, outfits, and <u>costume concepts</u>. It is all stunning. I feel like I have indulged in some form of art. This music video is credited to A. I do not know what else to say except wonderful. (21/3/2022) #Feel_My_Rhythm

T19: <u>วิชวล</u>ทั้งวง <u>โวคอล</u>เริ่คทั้งวง โอ้ยยยยยยยยย ทั้งสวยทั้งเก่ง

T19: The entire group is both <u>visual</u> and <u>vocal</u>. Oh, all of them are beautiful and talented. (21/3/2022) #Feel_My_Rhythm

T48: ขึ้น<u>เทรนด์ทวิต</u> ชาว<u>เน็ต</u>บ่นอุบ โอนเงินไม่ได้ <u>แอปพลิเคชัน</u>ธนาคารSBใช้งานไม่ได้ ไม่สามารถใช้บริการโอนเงินและ<u>สแกนคิวอาร์โค้ด</u>ผ่านแอปได้ ด้านเพจ SB โพสต์ขออภัยในความ ไม่สะดวก แนะนำเว้นช่วงระยะเวลาในการทำรายการ และทำรายการใหม่อีกครั้ง

T48: <u>Internet</u> users complain that they can't transfer money due to the <u>trending</u> tweet SB. The SB bank <u>application</u> is unserviceable. The application does not allow money transfers or <u>OR code scanning</u>. The SB page recommended leaving a period of time during the transaction, then going over the list again. (1/4/2022) #scba'ม

T68: ชอบ<u>ซีน</u>ของ A ที่เป็นปม<u>ซาวน</u>์ใตแล้วพบข้างเดียว ทำให้อยากรู้ว่าไตอีกข้างล่ะ เกิด อะไรขึ้น มันทำให้เราอยากคอยลุ้นไปด้วยว่ามีปมอะไร เหตุการณ์อะไรก่อนหน้าค่ะ เป็น<u>เบสซีน</u>ป มที่อยากทำให้อยากดูต่อเลยค่าบ

T68: I appreciate A's <u>scene</u>, which is a kidney <u>ultrasound</u> that reveals only one kidney. It makes me curious about what's happening on the other side of the kidney. What happened previously? It's the <u>best scene</u>, and I want to keep watching it. (25/4/2022) #ทริอาชTheSeriesEP2

From the results, it can be observed that Thai Twitter users during February to April 2022 have used transliterations type of loan words frequently. Almost every word taken from English was written and pronounced in Thai directly, but some words might be adjusted to match Thai pronunciation. For example, the word "Netizens". In Thai, people do not include the "s" sound in Thai word. Furthermore, the users have shortened the words such as the word "ultrasound" to "sound" – "ชาวน์".

4.2.2 Loan Blends

It can be seen from table 4.2.1 and table 4.2.2 that Thai people have occasionally used the loan blends type in Twitter next to the transliterations type. It accounted for 5.88 percent out of 100 percent of using English loan words in Thai in Twitter. Loan blends are combination between a foreign word and a native word. The purpose of using a native word is that it is used to describe the meaning of a foreign word in terms of characteristic, purpose, kind and type. Some examples of transliteration found in the data are shown here. For the complete list, please see Appendix A.

T20: ความเก๋อีกอย่างของ #Feel_My_Rhythm คือ elements นั่นนี่ใค้เรฟมาจากงาน สิลปะสีสวยหวานจากงานยุ**คโรแมนติก** โรโคโค อิมเพรสชั่นนิซึม แต่เล่าเป็น paralle ใปกับเอ็มวี แบบ overall ที่ใค้เรฟมาจากรูปสวนของ bosch ที่เป็นยุคกลางอะ แล้วคริสตศิลป์ยุคกลางก็อย่าง คาร์ค คือปังแท้

T20: Another gimmick of #Feel_My_Rhythm is elements from colorful artwork, which are the **Romantic**, Rococo, and Impressionism eras, but the story is interpreted in parallel with the overall music video and inspired by a photograph of the medieval bosch garden. You should realize that the work in medieval Christianity is pretty dark. Cool! (21/3/2022) #Feel_My_Rhythm

T28: ขอบคุณพี่ A ผู้กำกับ นักแสดง และทีมงานเบื้องหลังทุกคนที่ทุ่มเทกับงานชิ้นนี้จน ออกมาเป็น<u>งานมาสเตอรพีซ</u>นะคะ ทุกคนเก่งมากๆเลย

T28: Thank you, A, the director, as well as the actors and everyone behind the scenes who worked very hard to make this a **masterpiece**. Everyone is incredibly talented. (20/3/2022) #NotMeSeriesFinalEP

T29: the swings (1767) - Jean-Honore Fragonard
ภาพจาก<u>**ยุคมิดเดิ้ลเอจ**</u>ของจิตรกรชายชาวอิตาเลี่ยน ดูเหมือนเป็นภาพวาดธรรมดา แต่มีชื่อเต็มว่า
"Les hasards heureux de l'escarpolette (ความบังเอิญอันน่าชื่นมีนจากชิงช้าอันนั้น)

T29: Jean-Honore Fragonard's Swings (1767). A portrait of an Italian male painter from the <u>Middle Ages</u>. It appears to be a regular painting, but the official name is "Les hasards heureux de l'escarpolette." (Another delightful coincidence from that swing). (21/3/2022) #Feel_My_Rhythm

T30: ภาพนี้มีชื่อว่า The Happy Accidents of the Swing หรือเรียกสั้นๆว่า The swing (1767) เป็นผลงานสีน้ำมันบนผืนผ้าใบของ Jean-Honore Fragonard ซึ่งเป็นงานจิตรกรรมใน แบบของ<u>คิลปะโรโกโก</u> จัดเป็นศิลปะใฝ่โลกียะ แฝงด้วยเรื่องความสุขสนุกสนานและกระตุ้นราคะ (eroticism)

T30: This artwork, "The Happy Accidents of the Swing," also known as "The Swing" (1767), is an oil painting on canvas by Jean-Honore Fragonard in the **Rococo** style. It is classified as a worldly art form that implies joy, fun, and eroticism. (21/3/2022) #Feel_My_Rhythm

T38: ตอนนี้คือ 3-4-5 g ที่บ้านเหมือนมาไม่เต็ม อย่าถามหาไวไฟ นอกจากจะ<u>วนลูปดู</u>กู ต้องลูปดูแบบค้างเติ้งจ้า

T38: At my house, it appears that 3-4-5G is not a full ride. Don't ask about WiFi. In addition to **looping** to watching the drama, I have to watch the screen freeze again and again. (18/4/2022) #ทริอาชTheSeriesEp1

T39: รู้เลยว่าถ่ายทำยากมากกับใดอะล็อกเดิมๆซ้ำๆ <u>วนลูป</u>ไปมา คือดีอ่า ทุกคนเก่งจัง
T39: I understand how difficult it is to film with the same dialogue and <u>loop</u> back and forth. It is good. Everyone is amazing. (18/4/2022) #ทริอาชTheSeriesEp1

From cases above, they have used Thai word to expand the meaning more clearly.

In T20, they also have added the word "ยุค" together with the word "romantic" because the direct meaning of "romantic" word is about love, but in T30, they used this word to describe an era of art. So, they used the word "ยุค" - "period" to tell the purpose.

In T28, the word "masterpiece". The user added the word "11", which means work together with "masterpiece".

In T29, the word "Middle Ages". They have added the word "ยุค", which means period or era together with "Middle Ages".

In T30, the user has used the word "ศิลปะ", which means art to describe the word "rococo".

In T38 and T39, the users use the word "7u", which means loop to describe more about the nature of the word "loop" to better understand the word.

As shown in table 4.2.3, some loan words were used in tweets of Thai users. The highest frequency of English loan words in Thai was the word "series" at 3.03 percent, followed by netizen, scene, verse, stage, mob, and defend at 2.27 percent.

4.3 The Popular Topics on Twitter where Thai People use English Loan Words in Thai.

From observing 20 hashtags in Twitter, the researcher found that Thai users have used English loan words in Thai in many topics. The table below shows the words that Thai people use in each topic. The researcher used "TP" instead of the word "Topic". In addition, the researcher used TP1 for "Opinions on Celebrities", TP2 was "Gender", TP3 was "Music", TP4 was "Art", TP5 was "Politics", TP6 was "Medical", TP7 was "Food", TP8 was "Dancing", TP9 was "Financial", TP10 was "Movies and Dramas", and TP11 was "Others".

Table 4.3.1Popular Topics on Twitter where Thai People use English Loan Words in Thai

	Topic	Numbers of usage	Examples
			เนติเซน (Netizen), สตรีม
			(Steam), คอมฟอร์ท

From table 4.3.1, the researcher found that Thai people have used English loan words in Thai in a variety of topics, at present. Topics that people have used English loan words in Twitter from observation via 20 hashtags consist of opinions on celebrities, movies and dramas, art, music, medical, gender, dancing, financial, and others. On the other hand, the Twitter users have relatively little use of English loan words in Thai in politics, and food topics. It can be calculated as a percentage as follows:

Table 4.3.2Percentage of Popular Topics on Twitter where Thai People use English Loan Words in Thai

Topic	Numbers of usage	Percentage
Opinions on Celebrities	24	23.53
Gender	8	7.84
Music	9	8.82
Art	9	8.82
Politics	2	1.96
Medical	7	6.86
Food	2	1.96
Dancing	5	4.90
Financial	5	4.90
Movies and Dramas	16	15.69
Others	15	14.71
Total	102	100

Table 4.3.2 shows the percentage of popular topics on Twitter where Thai people use English loan words in Thai. The percentage of Thai people that have used English loan words in Thai for opinions on celebrities topic (TP1) is at 23.53 percent or 24 out of 102 words. The percentage of movies and dramas topic (TP10) is at 15.69 percent or 16 out of 102 words. The percentage of music (TP3) and art topic (TP4) is at 8.82 percent or nine out of 102 words. These topics were the top three where Thai people commonly use English loan words in Thai.

There are some cases in this study about using English loan words in Thai in each topic on Twitter as follows:

4.3.1 Opinions on Celebrities

Thai people have used English loan words in Thai in Entertainment topic in both good and bad ways.

T3, "I used to cry every day because I was afraid, I would never see him in front of the camera again. But after hearing all that nonsense, I almost wish he could stay in his comfort zone. The entertainment industry is too toxic" (8/3/2022)

The user who is fan of some actor mentioned the fear of never see their favorite actor in front of the camera and mentioned the entertainment industry, which is toxic.

T12, "The host of a Thai variety show has the same attitude towards making sh*t jokes. What's the funniest thing about that appearance? Idiot. Have you ever seen a foreign comedian? They don't tell jokes like this anymore. There are numerous ways to tell jokes without making a terrible face or having a dry smile. It's not humorous" (14/3/2022)

They mentioned bad actions of the actors and host in some of Thai variety show such as the actors bring the character of some person to parody.

T15, "B is a very developed character in this series. Not just his facial expressions and how he says things. We can see that the charisma is spreading. I have been following since S. A in today has much improved. I observe his efforts, and he works extremely hard. I wish you success in your future work" (20/3/2022)

They mentioned an actor's charisma in a series. Moreover, they mentioned the development of the actor.

T31, "Soft power of A! 4 tons of mango orchards should be ordered" (18/4/2022)

The Twitter user mentioned how the soft power of the singer affects the gardeners, since the singer has made people more interested in mangoes.

4.3.2 Movies and Dramas

Thai people have used English loan words in Thai about movies and dramas topic less than the opinions on celebrities topic.

T37, "Producing a medical series is a major undertaking. The reason for this is that they cannot make any mistakes and must conduct extensive research. The long take of A is both stunning and excellent. Both the narration and the gestures in the series are extremely precise. Everyone works very hard. Both the actors and the crew are really impressive" (18/4/2022)

They mentioned shooting a long take scene in the series and mentioned about details such as narration and gestures of the actors in the series.

T39, "I understand how difficult it is to film with the same dialogue and loop back and forth. It is good. Everyone is amazing" (18/4/2022)

They mentioned filming with the same dialogue, where it was very difficult to shoot.

4.3.3 Music

From the finding, it shows that Thai people have used English loan words in Thai about the performance of singer and style of the music including the details.

T19, "The entire group is both visual and vocal. Oh, all of them are beautiful and talented". (21/3/2022)

The Twitter user mentioned vocals of singers in some group.

T22, "It has a velvet concept that is soft and sweet. It appeals to me because it is soothing to hear". (21/3/2022)

They mentioned about the softness of the music.

T23, "I enjoyed them all, beginning with the first verse to ending verse. It is not strange when the second verse appears. The song is excellent. It's not stumbling and it's really slippery. I am glad to be a member of A Fanclub". (21/3/2022)

They mentioned the verse and the composition in the song.

4.3.4 Art

Thai people who are the users in Twitter have used quite a lot of English loan words in Thai about art.

T20, "Another gimmick of #Feel_My_Rhythm is elements from colorful artwork, which are the Romantic, Rococo, and Impressionism, but the story is interpreted in parallel with the overall music video and inspired by a photograph of the medieval bosch garden. You should realize that the work in medieval Christianity is pretty dark. Cool!". (21/3/2022)

They mentioned about art in music videos, which brings Romantic, Rococo, and Impressionism as a reference.

T24, "I really like the impressionism work in the latest A's music video for artistic kids as me, and what amazes me is that frame-by-frame animation. There is overproduction with a good result. The music is fantastic!!! Praise A". (21/3/2022)

The Twitter user also mentioned Romanticism and animation music videos.

T30, "This artwork, "The Happy Accidents of the Swing," also known as "The Swing" (1767), is an oil painting on canvas by Jean-Honore Fragonard in the Rococo style. It is classified as a worldly art form that implies joy, fun, and eroticism". (21/3/2022)

They mentioned oil painting in the Rococo style.

4.3.5 Gender

At present, Thai users have used English loan words in Thai about gender. Some examples of loan words in gender topic found in the data are shown here.

T6, "I think I am getting a better understanding of what A is doing in the mob. I'm not sure if this is what feminists or feminist of Twitter mean by "My Body, My Choice," but acting like this all the time isn't nice. B reminds me". (17/2/2022)

They mentioned the action of individuals in mob and Twitter about feminists.

T8, "When are Thai people going to stop making fun of LGBTQIA people? They own their identity, personality, appearance, and gestures. They are all the same as yours. What the hell do straight people mean when they say they're frightened of being LGBTQIA? Stop! There are many things to be afraid of, such as ghosts, robbers, and murderers. I believe you should first be terrified of yourself. Please change mindset". (14/3/2022)

The Twitter user mentioned the way that Thai people use LGBTQIA's appearance, gesture, and personality to make fun of them.

T11, "When I saw the teaser, it caught my attention. However, seeing each actor bring their character to making fun of it, this makes me very disappointed. Thailand is a racist country. Almost every show enjoys depicting sexual harassment. I have not watched Thai television for a long time. I do not understand why it is difficult to communicate beautifully with one another". (14/3/2022)

They mentioned about using LQTBQ's characters to make fun of them and making jokes about racism.

4.3.6 Medical

The results show that the Twitter users in Thailand have used jargon words about medical.

T42, "Knock out! Please perform CPR on me and place a tube in my nose. I can't breathe". (18/4/2022)

They mentioned the word "tube", which means tube used for breathing.

T46, "Triage is derived from the French word "Trier," which means "to divide." Triage levels are classified based on their level of severity.

Although each country is organized into different tiers, they frequently use symbolic colors to make them easier to work with". (19/4/2022)

They mentioned the meaning and source of word "Triage". Triage means severity classification of patients.

T66, "Let us now discuss <u>activated carbon</u>. I don't believe it's a valid method of treating patients who consume poisons. This is new to me because I've only heard this term in advertisements for a particular brand of cleansing <u>foam</u> and diarrhea tablets". (25/4/2022)

The Twitter user mentioned "activated carbon" which means the drug is used to treat people who have been poisoned or overdosed.

4.3.7 Dancing

Thai people on Twitter have used English loan words in Thai in dancing topic. Some examples of loan words in dancing topic are found in the data are shown here.

T53, "The following stage will involve sharing vocal and dancing collaborations, similar to the previous round. Wait". (21/4/2022)

They mentioned dance collaboration in variety shows.

T61: "Oh, why do I adore every step he takes? He is so cute and is receiving a lot of positive feedback. When there is a battle dance, his eyes sparkle, and his female dancer looks like they are friends. Lovely". (16/4/2022)

They mentioned a dance battle of an artist with a female dancer.

4.3.8 Financial

The findings show that Thai people have used the financial terminology such as "bills" and "slip". Moreover, they also use "QR code scanning" when they want to

make financial transactions. Some examples of loan words in financial topic found in the data are shown here.

T49: "You can't pay bills, but you can top up". (1/4/2022)

T48: "Internet users complain that they can't transfer money due to the trending tweet SB. The SB bank application is unserviceable. The application does not allow money transfers or QR code scanning. The SB page recommended leaving a period of time during the transaction, then going over the list again". (1/4/2022)

4.3.9 Politics

Thai people who are Twitter users have used the word "mob" when they talk about people protesting the government. In addition, they use the word "claim" when they talk about the person in the government. Examples of loan words in politics topic are found in the data are shown here.

T64: "They pushed the children's backs to form a risky mob because they believed the state power would not dare arrest the children. However, a large number of children have been detained recently. It is time to stop being the children's back-up and instead confront it on your own". (22/4/2022)

4.3.10 Food

The results show that Thai people have used the word "fever" when some foods were popular at that time. Meanwhile, when ordering fruit or food, they also used the word "order" directly. Examples of loan words in food topic found in the data are shown here.

T31: "Soft power of A! 4 tons of mango orchards should be ordered". (18/4/2022)

T32: "B is the one who created the mango sticky rice fever. The topic of discussion at work today is mango sticky rice. Then there was Senior, who gave a brief background on B". (18/4/2022)

CHAPTER 5

DISCUSSION, CONCLUSIONS, AND RECOMMENDATIONS

5.1 Summary of the Study

This part summarizes the objectives, subjects, and procedures of this study as follows:

5.1.1 Objectives of the Study

The objectives of this study were observing the types of English loan words in Thai that Thai people use the most on Twitter and to find the popular topics on Twitter where Thai people use English loan words in Thai.

5.1.2 Data and Procedures

The data of the study were 73 tweets that used English loan words in Thai by Thai people from 20 hashtags on Twitter. Moreover, 20 hashtags from Twitter that were daily popular hashtags in Thailand trends were studied. Because the data source collected more than 100 tweets, the sampling method was applied in the study.

The data was collected in the form of Thai tweets that contained English loan words in Thai on Twitter from hashtags. Before the researcher collected the data, the researcher set the information that they needed to know in the advanced search box on Twitter such as put the hashtag ranked at that moment and set the language into Thai to easily find the hashtag because some hashtags were tweeted in many languages. Then, they set the dates of tweet because some hashtags had been used for several days but it might not be ranked in Thailand trends. So, it had to be set to get the data that were ranked at that moment only. These data were captured by Apple's Mac screenshot tool. The data were gathered in Microsoft Word for analyzing. Also, all of data were translated from Thai to English. In addition, the data, which were 73 tweets in the word file were categorized into type of English loan words based on Sujaduk's (2006) theory. Next, the data were analyzed into topics used by Thai people on Twitter by thematic analysis.

5.2 Summary of the Results

This part summarizes the results of the study as follows:

5.2.1 The Topics and Hashtags were found from Searching on Twitter

According to the findings, there were 11 topics found in 20 hashtags on Twitter. Opinions on celebrities were found in hashtags rather than the another nine topics, which does not include "other" topic, supplemented by movies and dramas topic. Meanwhile, art, food, and financial topics were each found in one hashtag.

5.2.2 Types of English Loan Words in Thai used in Twitter

According to the findings, 73 tweets where Thai people used English loan words in Thai on Twitter were found. Most Thai people commonly use transliteration type, which was higher than loan blends type. The percentage of transliterations type was 94.12 percent or 96 out of 102 words on Twitter. While, the percentage of loan blends type was 5.88 percent or six out of 102 words. On the other hand, loan shifts and loan translations were not found in this study. As a result, transliterations type is the most superior type of English loan word used in Thai on Twitter.

5.2.3 Frequency of Using English Loan Words in Thai on Twitter

The highest frequency of English loan words in Thai used on Twitter was the word "series". Thai Twitter users commonly used this word on social media to describe a drama, which is consecutive episodes, followed by netizen, scene, verse, stage, mob, and defend respectively. They used "netizen" to describe the internet users. Meanwhile, the words "scene", "verse", and "stage" were used on social media in terms of drama and music. Furthermore, the Thai Twitter users used "defend" when a group of people came out to defend some person.

5.2.4 The Popular Topics on Twitter where Thai People use English Loan Words in Th0ai.

Through the study's findings, Thai people have used English loan words in Thai for opinions on celebrities topic, which was higher than movies and dramas topic, supplemented by music and art topic. Following the results of this research, Thai

Twitter users commonly used English loan words in Thai in both good ways and bad ways to comment on celebrities. Next, they have used English loan words in Thai in movies and dramas topic in terms of shooting and filming. Furthermore, they used English loan words to mentioned the style of art and the details of music.

5.3 Discussion

According to the results of the study, transliterations type was the most common type, which is used on Twitter in Thailand. However, loan shifts and loan translations were not found using English loan words in Thai on Twitter. The results of this study both had similar and dissimilar results with previous studies. This study is consistent with the study of Widyaningsih (2017), which stated that Indonesian people regularly use adoption or transliterations on social media. Likewise, the study of Tadee and Mahakaew (2019) revealed that online advertisement in Thailand widely uses transliteration type. Meanwhile, loan blends and loan translation are occasionally used on online advertisements. In this study, the Twitter users also occasionally use loan blends when they need to describe characteristics, purpose, kind, and type of words. On the other hand, Widyaningsih stated that Indonesian people also commonly use levies or loan shifts on social media. In Thailand, people do not use loan shifts and loan translations on Twitter.

Based on the results of this study regarding the popular topics where the Twitter users use English loan words in Thai, the users commonly use loan words with opinions on celebrities, movies and dramas, music, and art topic. These results show a difference from the study of Chaa (2021) which revealed that people commonly use loan words for technology and sport topics on social media.

In addition, the results found that some words were changed from the words that already exist in Thai language to English loan words in Thai on Twitter, which is transliterations type instead such as the word "charisma" was transliterated in Thai instead of using the word "เสน่ห์" that already exist in Thai. The word "series", in Thai dictionary mean a set of things or a set of dramas. In Thai, it can be called "La-konchud" but Thai people commonly use word "series" in loan words to describe dramas that are broadcast in consecutive episodes on social media platform.

5.4 Conclusion

This study aimed to find the types of English loan words that Thai people use the most and the popular topics where Thai people use English loan words in Thai on Twitter. The results of this study revealed that transliterations type was used by Thai people on Twitter the most. Loan blends type was occasionally used by Thai people on Twitter. Moreover, the popular topics that Thai people use English loan words in Thai are opinions on celebrities topic, movies and dramas topic, music topic, and art topic, which are the top three topics. However, Thai users on Twitter mostly used loan blends type with art topic to describe the characteristic or purpose of the words to easily understand. On the other hand, transliterations type was applied in various topic such as opinions on celebrities, movies and dramas topic, music, medical, dancing, financial, gender, politics, and food. Apart from using English loan words, there are some words were cut to decrease the syllables. For example, the word "ชาวน์" – "sound" originated from the word "ultrasound". The word "ชาวน์ต" – "net" originated from the word internet. Furthermore, some words might not be written with the "s" sound in Thai such as the word "netizens", Thai users usually write "เมติเซน" – "netizen".

5.5 Recommendations for Further Research

This study was conducted with only 20 hashtags which were daily popular hashtags from February to April 2022, which is a short period of time. Therefore, the results of this study reveal short-term results at that time and the results of the study will not cover all hashtags. Further research should study for longer period for the stable results and study on other hashtags which are not daily popular hashtags. In addition, this study only focused on the use of English loan words in Thai on Twitter. Further research might investigate the use of English loan words of Thai people in other social media such as Facebook, YouTube, Instagram, and TikTok.

APPENDIX A

TYPES OF ENGLISH LOAN WORDS THAT THAI PEOPLE USE THE MOST ON TWITTER

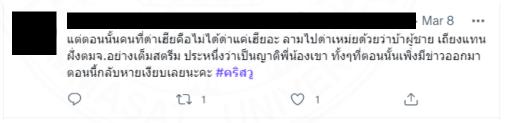

Transliterations Type

T1

T1: Why does one person have to suffer because of reputational damage? Their work is banned, and they are labeled as psychopaths. There is no conclusive evidence, and the gullible personas of <u>internet users</u> who are not only Chinese <u>netizens</u>, but also Thai <u>netizens</u>. It is very disgraceful. (8/3/2022) #กริสา

T2

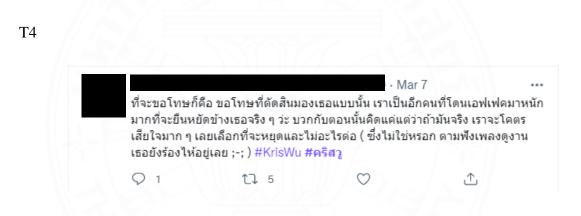

T2: But at the time, that individual was not only cursing him, but also scolding A for being obsessed with males. Arguing in full <u>stream</u> for the B side as if they were his relatives. Despite the fact that the news had just come out at the time, you have now disappeared totally. (8/3/2022) #คริสา

T3

T3: I used to cry every day because I was afraid, I would never see him in front of the camera again. But after hearing all that nonsense, I almost wish he could stay in his **comfort** zone. The entertainment industry is too **toxic**. (8/3/2022) #กริสา

T4: What I want to apologize for is that I'm sorry that I judged you like that. I am also the one who gets the <u>effect</u> and does not believe anyone, so I cannot really stand alongside you. Nonetheless, if that is true, I will be really upset, so I have decided to quit and do nothing. (7/3/2022) #กริสา

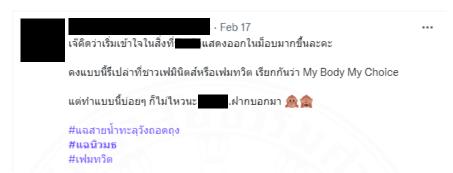

T5

T5: Thank you for the tag. The person who used to trash my elder brother came out to apologize, expending the same amount of **energy** as you did when you scolded

him. My brother did not do anything wrong. Please return to the information and critically think about it again. Not acting as if nothing happened. (7/3/2022) #กริสา

T6

T6: I think I am getting a better understanding of what A is doing in the <u>mob</u>. I'm not sure if this is what <u>feminists</u> or feminist of Twitter mean by "My Body, My Choice," but acting like this all the time isn't nice. B reminds me. (17/2/2022) #แกนิวมธ

T7

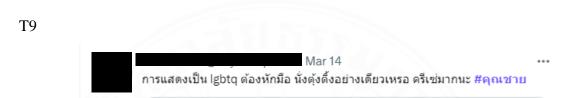

"Citizen of the world" คือจริงมากในสถานการณ์ #ยูเครน
ยุคสมัยไร้ขอบเขตพรมแดนมาถึงแล้ว มันไม่ได้แล้วที่จะอีกนอ
แรนซ์ว่าเป็นเรื่องของเค้านะ
Translate Tweet

T7: "Citizen of the world" is very true in the Ukraine situation. The age of no boundaries has arrived. People cannot be **ignorance** and think that it is not our business. (2/3/2022) #ยูเครน

T8

T8: When are Thai people going to stop <u>making fun</u> of LGBTQIA people? They own their identity, personality, appearance, and gestures. They are all the same as yours. What the hell do straight people mean when they say they're frightened of being LGBTQIA? Stop! There are many things to be afraid of, such as ghosts, robbers, and murderers. I believe you should first be terrified of yourself. Please change <u>mindset</u>. (14/3/2022) #คุณชาย

T9: Why do people continue to believe and act in accordance with the media's portrayal of LGBTQ people? It is so <u>cliché</u>. (14/3/2022) #คุณชาย

T10: If fans are aware of the **feedback**, please inform them. (14/3/2022) #คุณชาย

17 4

T11

T11: When I saw the <u>teaser</u>, it caught my attention. However, seeing each actor bring their <u>character</u> to making fun of it, this makes me very disappointed. Thailand is a racist country. Almost every show enjoys depicting sexual harassment. I have not watched Thai television for a long time. I do not understand why it is difficult to communicate beautifully with one another. (14/3/2022) #คุณชาช

T12

T12: The host of a Thai <u>variety</u> show has the same attitude towards making sh*t jokes. What's the funniest thing about that appearance? Idiot. Have you ever seen a foreign <u>comedian</u>? They don't tell jokes like this anymore. There are numerous ways to tell jokes without making a terrible face or having a dry smile. It's not humorous. (14/3/2022) #คุณชาย

T13: The <u>straight</u>, Ah, many people choose to play gay series because it is so simple to stay trendy and popular. However, when they have to show up on some stage, they have to act like they are not <u>okay</u> because they are afraid that people will believe they are gay due to <u>homophobe</u> and will pretend to be so in order to demonstrate their abilities. Acting according to <u>stereotype</u> and attempting to comprehend a character's gender role is not the same. (13/3/2022) #คุณชาย

T14

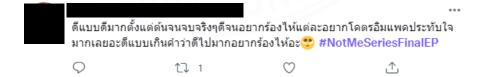

T14: A good <u>plot</u> won't help if the individuals on the channel continue to be like this. Both the host and the actors are still conservative. They saw another channel did about sexuality drama and got positive feedback. Then, they only want to do drama about this <u>community</u>. However, they do not understand sexuality (and may be <u>homophobe</u>), which they still stereotype and <u>make fun</u> of. It's pity. (13/3/2022) #

T15

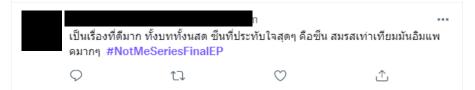

T15: B is a very developed character in this series. Not just his facial expressions and how he says things. We can see that the **charisma** is spreading. I have been following since S. A in today has much improved. I observe his efforts, and he works extremely hard. I wish you success in your future work. (20/3/2022) #NotMeSeriesFinalEP

T16

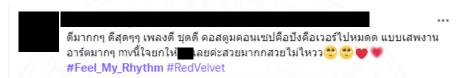

T16: It is very good from beginning to end and makes me want to cry. Every combination is very **impact** and striking. I want to cry. (20/3/2022) #NotMeSeriesFinalEP

T17

T17: Both the script and the actors are excellent. The same-sex marriage <u>scene</u> is the most impressive. It has a big <u>impact</u>. (20/3/2022) #NotMeSeriesFinalEP

T18

T18: Everything is awesome. Excellent music, outfits, and <u>costume concepts</u>. It is all stunning. I feel like I have indulged in some form of art. This music video is credited to A. I do not know what else to say except wonderful. (21/3/2022) #Feel_My_Rhythm

T19

T19: The entire group is both <u>visual</u> and <u>vocal</u>. Oh, all of them are beautiful and talented. (21/3/2022) #Feel_My_Rhythm

T20

T20: Another gimmick of #Feel_My_Rhythm is elements from colorful artwork, which are the Romantic, Rococo, and **Impressionism reference**, but the story

is interpreted in parallel with the overall <u>MV</u> and inspired by a photograph of the medieval bosch garden. You should realize that the work in medieval Christianity is pretty <u>dark</u>. Cool! (21/3/2022) #Feel_My_Rhythm

T21

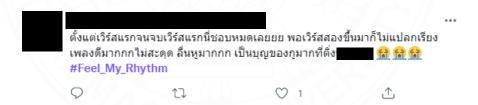

T21: Why is this song not **mass**? The song is fantastic. #Feel_My_Rhythm

T22

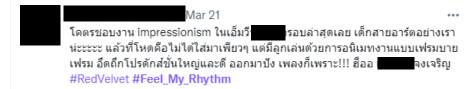

T22: It has a velvet concept that is **soft** and sweet. It appeals to me because it is soothing to hear. (21/3/2022) #Feel_My_Rhythm

T23

T23: I enjoyed them all, beginning with the first <u>verse</u> to ending <u>verse</u>. It is not strange when the second <u>verse</u> appears. The song is excellent. It's not stumbling and it's really slippery. I am glad to be a member of A Fanclub. (21/3/2022) #Feel_My_Rhythm

T24

T24: I really like the impressionism work in the latest A's <u>MV</u> for <u>artistic</u> kids as me, and what amazes me is that <u>frame-by-frame</u> animation. There is

over<u>production</u> with a good result. The music is fantastic!!! Praise A. (21/3/2022) #Feel_My_Rhythm

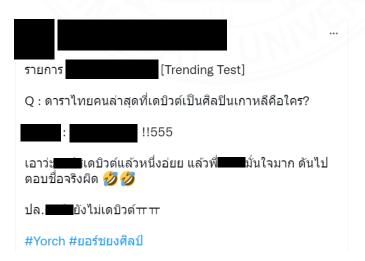

T25

T25: Awwwww Thank you A for <u>healing</u> my heart on such a difficult day. Despite my bad mood, I match the boyfriend's <u>mood</u>. I've forgotten everything and can smile again after only 5 minutes. This <u>series</u> truly <u>heals</u> and relieves tension. (21/3/2022) #BusinessProposalEP7

T26: B's smile has the **damage** for my heart. (22/3/2022) #YORCH

T27

T27: A has already made his <u>debut</u>. B is so confident, but he tells his real name wrong. (19/3/2022) #YORCH

T31: <u>Soft power</u> of A! 4 tons of mango orchards should be <u>ordered</u>. (18/4/2022) #MILLILiveatCoachella

T32

T32: B is the one who created the mango sticky rice <u>fever</u>. The topic of discussion at work today is mango sticky rice. Then there was Senior, who gave a brief background on B. (18/4/2022) #MILLILiveatCoachella

T33

T33: Thinking of <u>claiming</u>, thinking of uncle. (18/4/2022) #MILLILiveatCoachella

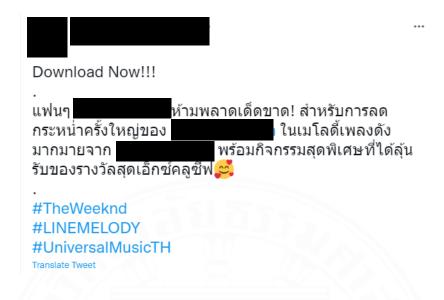

T34: Actually, many people know that the current train is not the same as the train during King Rama V's reign. However, if you look at the **bogie** or the seat, the train remains the same as when Rama V is seated on it in the image. Therefore, they compared the train from that time. (18/4/2022) #MILLILiveatCoachella

T35: The weather forecast for today is the same as it is every day.

The reason behind this is that the weather in Thailand has three seasons: hot, very hot, and extremely hot.

It's sweltering from the Florida <u>stage</u> to Thailand, but did you know that the "sunflower" is a summer symbol? (18/4/2022) #MILLILiveatCoachella

T36: W fan, don't miss it! For a big discount of B, many famous <u>melodies</u> from "W" with special activities to win <u>exclusive</u> prizes. (18/4/2022) #TheWeeknd

T37

ถือว่าวัดใจมากกับการทำซีรี่ย์เกี่ยวกับวงการแพทย์ เพราะมัน พลาดไม่ได้แม้แต่นิดเดียว ลองเทคของ คือ อึ้งเลยอ่ะ เก่ง มาก ซีรี่ย์ละเอียดมาก ทั้งคำบรรยาย ทั้งกิริยาท่าทาง การ ทำงานของคนในแผนก ชื่นชมทุกคน ทั้งนสด ทั้งทีมงาน ดี มากจริงๆ #ทริอาชTheSeriesEp1 #ทริอาชTheSeries

11:54 PM · Apr 18, 2022 · Twitter for Android

T37: Producing a medical <u>series</u> is a major undertaking. The reason for this is that they cannot make any mistakes and must conduct extensive research. The <u>long</u> <u>take</u> of A is both stunning and excellent. Both the narration and the gestures in the <u>series</u> are extremely precise. Everyone works very hard. Both the actors and the crew are really impressive. (18/4/2022) #ทริอาชTheSeriesEp1

T38: At my house, it appears that 3-4-5G is not a full ride. Don't ask about <u>WiFi</u>. In addition to <u>looping</u> to watching the drama, I have to watch the screen freeze again and again. (18/4/2022) #ทริอาชTheSeriesEp1

T39: I understand how difficult it is to film with the same <u>dialogue</u> and loop back and forth. It is good. Everyone is amazing. (18/4/2022) #หรือาชTheSeriesEp1

T40

T40: How much did they spend on a <u>workshop</u> and researching the information before going through a <u>scene</u> to treat each patient? (18/4/2022) #หรือาชTheSeriesEp1

T41: After watching, I'd like to say that Team A did an excellent job. In my ward, I believe everyone was overwhelmed by this because people started smashing into each other and things were all over the place. (18/4/2022) #ทริอาช The Series Ep1

T42

Knock out! CPRฉันเลย ใส่ทิวบ์ฉันด้วย หายใจไม่ออก /หวีด
แบบแฟนทริอาช #ทริอาชTheSeriesEp1

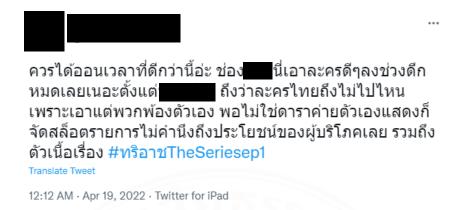

T42: Knock out! Please perform CPR on me and place a <u>tube</u> in my nose. I can't breathe. (18/4/2022) #หรือาชTheSeriesEp1

T43

3. Resident ทั้งสามใส่ Glove+Mask เมื่อทำหัตถการ ทั้งๆที่ เป็นแค่แบ็คกราวด์ชัดๆ ไม่เห็นต้องซีเรียสขนาดนั้นก็ได้ พวก คุณนี่สุดๆไปเลย #ทริอาชTheSeriesEp1

T43: All three residents wear gloves and masks and perform the procedure. Even though they are just **background**, I don't see the need to be that **serious.** You guys are the best. (19/4/2022) #หรือาชTheSeriesEp1

T44: It should have been <u>on-air</u> at a better time. Since NH, Channel S has always arranged for good dramas to air late at night. This could be a reference to the fact that Thai dramas are failing because they only focus on their team. When there isn't a star in their group, the drama list <u>slot</u> may not be organized with the consumer's interests in mind, even if it contains a good storyline. (19/4/2022) #nsolveTheSeriesEp1

T50: At first, I thought that the bank <u>password</u> had been changed. (17/3/2022) #scbล่ม

T51

T51: Oh no, I did a money transfer and the <u>slip</u> was not saved. In retrospect, I won't be able to present it. After that, I must send a payment confirmation <u>slip</u>. It got me in trouble. (2/4/2022) #scbล่ม

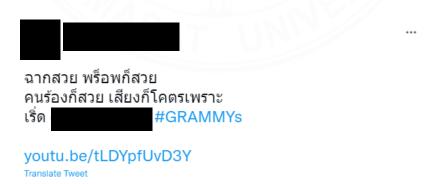

T52: The next episode may be a **workshop** or a trip somewhere. I'm traveling on vacation, so I won't be able to watch it. (21/4/2022) #QUEENDOM2

T53

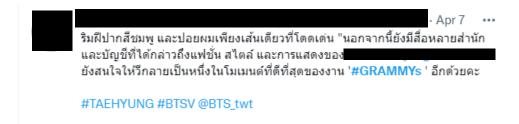

T53: The following <u>stage</u> will involve sharing <u>vocal</u> and <u>dancing</u> <u>collaborations</u>, similar to the previous round. Wait. (21/4/2022) #QUEENDOM2

T54

T54: The scene is beautiful, the **props** are gorgeous, the singer is lovely, and her voice is fantastic. (18/4/2022) #GRAMMYs

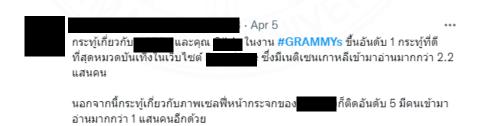

T55: Pink lips stand out against the lone tress. Many media outlets have praised KT's fashion, **style**, and performance, and BC News has named C as one of the best **moments** of the "GM" event." (7/4/2022) #GRAMMYs

T56

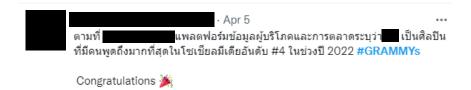

T56: From A's appearance at the GM until today, more than 300 tweets about C have been spoken from verified media and Twitter <u>accounts</u> around the world, indicating that C is a Global Media Sensation at the GM, which gained a lot of media attention and became the event's <u>highlight</u>. (6/4/2022) #GRAMMYs

T57

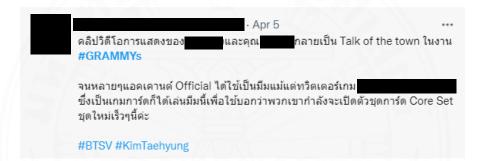

T57: The C and A at GM forums ranked first in the entertainment category on PN, which is read by over 220,000 Korean **netizens**.

Furthermore, the topic about C's mirror **selfie** was ranked fifth, with over 100,000 people reading it. (5/4/2022) #GRAMMYs

T58: According to consumer intelligence and marketing **platform** NB Q, A is the artist who will be most talked about on **social media** in 2022, ranking fourth. (5/4/2022) #GRAMMYs

T59

T59: At the event, the video clip of A and B's performance became the talk of the town. Many official <u>accounts</u> used it as a <u>meme</u>. Even if @C, which is the <u>game</u> <u>card</u> also use this <u>meme</u> to announce the upcoming release of a new core card set. (5/4/2022) #GRAMMYs

T60

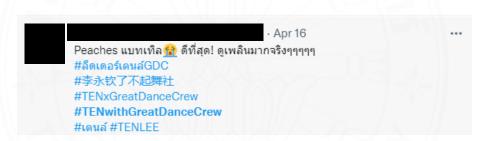

T60: In less than 24 hours, I'll see my <u>leader</u> on <u>stage</u> and hear a new song. I'm so excited. (22/4/2022) #TENxGreatDanceCrew

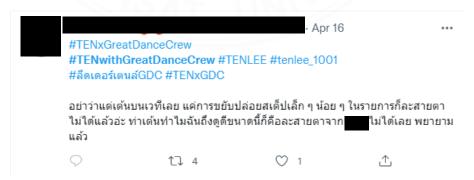

T61: Oh, why do I adore every step he takes? He is so cute and is receiving a lot of positive **comments**. When there is a **battle dance**, his eyes sparkle, and his female dancer looks like they are friends. Lovely. (16/4/2022) #TENwithGreatDanceCrew

T62

T62: Peaches <u>battle</u> is the best. I enjoy watching it a lot. (16/4/2022) #TENwithGreatDanceCrew

T63

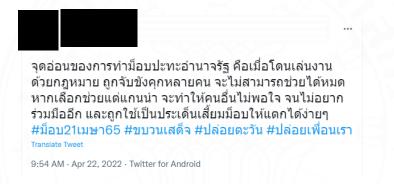

T63: Not only by dancing on stage, but just by moving a few **steps** in the show, I can't take my eyes off it. I can't take my gaze away from A because the dancing is so fantastic. I've already tried. (16/4/2022) #TENwithGreatDanceCrew

T64: They pushed the children's backs to form a risky <u>mob</u> because they believed the state power would not dare arrest the children. However, a large number of children have been detained recently. It is time to stop being the children's back-up and instead confront it on your own. (22/4/2022) #ขบวนเสด็จ

T65

T65: When the law is being assailed, the weaknesses of providing a <u>mob</u> against governmental power become apparent. Many people who have been detained and imprisoned will be unable to assist in any way. If you simply help the leader, others will be unsatisfied and unwilling to cooperate again. As a result, the collaboration is readily broken. (22/4/2022) #ขบวนเสด็จ

T66

T66: Let us now discuss <u>activated carbon</u>. I don't believe it's a valid method of treating patients who consume poisons. This is new to me because I've only heard this

term in advertisements for a particular brand of cleansing **foam** and diarrhea tablets. (25/4/2022) #หรือาชTheSeriesEP2

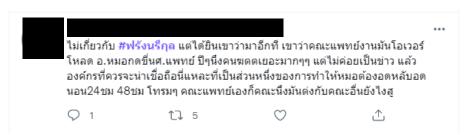

T67

T67: Seriously, why was NG so awful when I first watched it? Is GI bleed the same size as a **tube**? It is, in fact, charcoal. Hahahaha (25/4/2022) #ทริอาชTheSeriesEP2

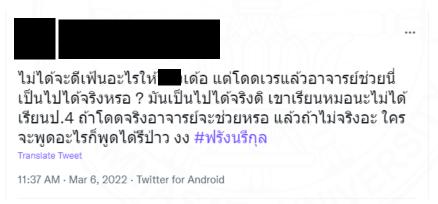

ชอบซีนของ ที่เป็นปมชาวน์ไตแล้วพบข้างเดียว ทำให้อยาก รู้ว่าไตอีกข้างล่ะ เกิดอะไรขึ้น มันทำให้เราอยากคอยลุ้นไปด้วย ว่ามีปมอะไร เหตุการณ์อะไรก่อนหน้าค่ะ เป็นเบสซีนปมที่อยาก ทำให้อยากดูต่อเลยค่าบ #ทริอาชTheSeriesEP2 Translate Tweet

T68: I appreciate A's <u>scene</u>, which is a kidney <u>ultrasound</u> that reveals only one kidney. It makes me curious about what's happening on the other side of the kidney. What happened previously? It's the <u>best scene</u>, and I want to keep watching it. (25/4/2022) #ทริอาชTheSeriesEP2

T69: It is nothing about #ฟรังนรีกุล, but I've heard that the medical faculty is **overload** of work. Teachers oppress students, and many people commit suicide each year, yet few people are aware of this. Despite the fact that this organization should be credible, it causes students to be unable to sleep at all. How do medical faculties differ from one another? (6/3/2022) #ฟรังนรีกุล

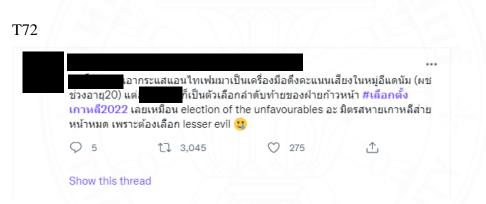

T70

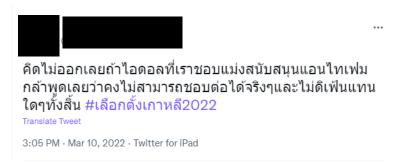

T70: I don't <u>defend</u> F, but do you guys believe skip her on duty possible? She learned medicine, not learned in primary school. I think teachers might not be helpful. If it's not true? Everyone can give fake news. (6/3/2022) #ฟรัจนรีกล

T71: Can I ask if those who <u>defend</u> #ฟรังนรีกุล are young or mature because they see bad things as good and can find an excuse that doctors are also human like others? Is the world about to end? (6/3/2022) #ฟรังนรีกุล

T72: Y used the <u>anti-feminist</u> movement to win votes from Edae Nam (male who have 20 years old), while L is the progressive party's last choice in #เลือกตั้ง
เกาหลื2022. It appears to be an election of the unfavorables, and many Korean friends shake their heads, as it appears that you must choose the lesser evils. (9/3/2022) #เลือกตั้ง

T73: I'm not sure whether any of my favourite idols are <u>anti-feminist</u> or not, but I can state that I no longer support and <u>defend</u> them anymore. (10/3/2022) #เลือกตั้ง เกาหลี2022
